(2002)

CHEA RECOGNITION INFORMATION

History: Recognized by CHEA in April 2002

Most Recent Recognition Action

Date: CHEA Board of Directors Meeting, April 29-30, 2013
Decision: Recognition for up to 10 years with a report in one year and approval of a change in scope of CHEA-recognized scope of accreditation

The CHEA Committee on Recognition and the Board of Directors reviewed the Middle States Commission on Higher Education. The review was based on the six CHEA recognition standards that require an accrediting organization to show that its accreditation process advances academic quality, demonstrates accountability, encourages self-scrutiny and planning, employs fair and appropriate procedures and demonstrates ongoing review of practice, and that it possesses sufficient resources to carry out its accreditation processes (2006 CHEA Recognition Policy and Procedures, Paragraphs 12A-12F, pp. 5-8).

MSCHE demonstrated that it meets these standards and that its accreditation process is consistent with the quality improvement and accountability expectations that CHEA has established.

Additional Determination: MSCHE is required to provide a report that documents the implementation of accreditation standards or policies that require programs routinely to provide reliable information to the public on their performance, including student achievement as determined by the institution or program (Paragraph 12(B)(1), 2006 CHEA Policy and Procedures). The report needs to include a description of how MSCHE monitors its
institutions to affirm that they meet accreditation standards that call for providing information to the public on student achievement.

In addition to the decision to award recognition, the board of directors agreed to changes in MSCHE’s CHEA-recognized scope of accreditation. The CHEA-recognized scope of accreditation is now the following:

*Degree-granting institutions which offer one or more postsecondary educational programs, including those offered via distance education, of at least one academic year in length in Delaware, the District of Columbia, Maryland, New Jersey, New York, Pennsylvania, Puerto Rico, the Virgin Islands, and other geographical areas outside the United States in which the Commission conducts accrediting activities.*

(2013)

The CHEA recognition policy requires that an accrediting organization undergo a recognition review at least every 10 years and submit two interim reports.
