CHEA Recognition Information

History: Recognized by CHEA in March 2004; May 2015

Most Recent Recognition Action

Date: CHEA Board of Directors Meeting, May 4-5, 2015

Decision: Recognition for up to 10 years with a report

The CHEA Committee on Recognition and the Board of Directors reviewed the American Podiatric Medical Association Council on Podiatric Medical Education (APMA-CPME). The review was based on the six CHEA recognition standards that require an accrediting organization to show that its accreditation process advances academic quality, demonstrates accountability, encourages self-scrutiny and planning, employs fair and appropriate procedures and demonstrates ongoing review of practice, and that it possesses sufficient resources to carry out its accreditation processes (*2010 CHEA Recognition Policy and Procedures, Paragraphs 12A-12F, pp. 5-8*).

APMA-CPME demonstrated that it meets these standards and that its accreditation process is consistent with the quality, improvement and accountability expectations that CHEA has established.

Additional determination: APMA-CPME is required to provide an update on adjustments to the Memorandum of Agreement with the American Podiatric Medical Association, if any, in its next Interim Report, especially any changes related to the Council's independence as called for in CHEA Eligibility Standard 9G and CHEA Recognition Standard 12F.

The CHEA recognition policy requires that an accrediting organization undergo a recognition review least every 10 years and submit two interim reports.
