The CHEA Committee on Recognition and the Board of Directors reviewed the Commission on Accreditation of Medical Physics Education Programs, Inc. (CAMPEP). The review was based on the six CHEA recognition standards that require an accrediting organization to show that its accreditation process advances academic quality, demonstrates accountability, encourages self-scrutiny and planning, employs fair and appropriate procedures and demonstrates ongoing review of practice, and that it possesses sufficient resources to carry out its accreditation processes (*2010 CHEA Recognition Policy and Procedures*, Paragraphs 12A-12F, pp. 5-8).
