Council for Higher Education Accreditation
Mission Statement

The Council for Higher Education Accreditation will serve students and their families, colleges and universities, sponsoring bodies, governments, and employers by promoting academic quality through formal recognition of higher education accrediting bodies and will coordinate and work to advance self-regulation through accreditation. (1996)

A national advocate and institutional voice for self-regulation of academic quality through accreditation, CHEA is an association of 3,000 degree-granting colleges and universities and recognizes 60 institutional and programmatic accrediting organizations.
CHEA-Recognized Organizations

The accrediting organizations identified in this directory are recognized by the Council for Higher Education Accreditation (CHEA). Recognition by CHEA affirms that the standards and processes of the accrediting organization are consistent with the academic quality, improvement and accountability expectations that CHEA has established, including the eligibility standard that the majority of institutions or programs each accredits are degree-granting.
